2022-2023 IMPACTING LIVES IN BREVARD COUNTY

www.brevardfp.org

Phil Scarpelli President and CEO

How do I define success? It is the combined commitment, dedication, and relentless pursuit of impact that we accomplish together. Brevard Family Partnership has always valued our partner agencies, our faith and civic communities, local businesses and institutions when leveraging resources and human capital in order to protect our precious children and strengthen our families in need. This year was amazing, for which I give much gratitude to the 300+ staff across the Family of Agencies, Brevard Family Partnership, Family Allies, and C.A.R.E.S. We couldn't have accomplished so much if it weren't for the support and generosity of many throughout Brevard county.

In the past year we have adopted more than 170 children to their forever families, have impacted the lives of 2,000 families from Mims to Palm Bay, and have diverted over 850 children and their families from entering the formal dependency system. Together we are meeting people where they are at, engaging them with compassion, and empowering them to achieve their own destiny and maintain a level of resilience that will carry forward through generations.

As we watch our county's population grow at such a rapid rate, we realize that the future of our citizen's will increasingly rely on our efforts to travel even further upstream before they face crises. I am confident that not only Brevard Family Partnership can count on our community stakeholders, but our community stakeholders can also count on us. We have demonstrated that we are better together!

God bless you all and thank you from our family to yours.

Sincerely,
Phil Scarpelli

Dan Rodgers Board Chair

Thank you to our community and our partner agencies for supporting Brevard Family Partnership and the Family of Agencies. We truly appreciate your support!

For 2023, we continue to exceed our annual adoption goal. With the wonderful support from the community, 170 children found their forever home in 2023. Our adoption facilitators work very hard to make these adoptions happen.

As a result of the salary increase in 2022 for our frontline staff, we have been able to see a steady increase in our employee retention. Our case managers and support staff are our most important asset. Without their hard work and dedication, we would not enjoy the success we are so proud of. They are now better compensated for that hard work and dedication.

Our governance board has continued to add community advocates to the board. What is refreshing about that is most of our new board members are younger professionals looking to make a difference. Most of our governance board members have not worked in child welfare, but they recognize the importance of this work and are committed to making a difference in the lives of the children and families we serve.

In addition to serving as board chair, I serve as the Chair of the Brevard CARES Advisory board. I would be remiss if I did not call attention to their work with the Melbourne Police Department engaging youth and families known to Melbourne PD with family issues beyond the capabilities of the officers that respond. This is truly a win-win situation that supports the police Department but more importantly, connects the families up with needed services.

Best wishes for 2024 and thank you!
